Professional Summary

Frontend Developer with **3.5+ years** of experience building scalable **web and mobile applications** using **React Native (iOS and Android), React.js, Next.js, Angular (v12+), and Node.js**. Experienced in building scalable applications, integrating complex APIs, and delivering high-performance user experiences from concept to deployment.

Technical Skills

Frontend: React.js, Next.js, Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3

Mobile: React Native, Flutter, Android SDK, iOS

Backend: Node.js, Express.js, RESTful APIs, MongoDB, Socket.IO

State Management: Redux, Redux Toolkit, TanStack Query, Context API

IoT & Real-Time Technologies: MQTT, Zigbee, Maps Integration, Telematics

Tools: Git, GitHub, AWS, Jira

Architecture & Concepts: Micro-frontend Architecture for scalable web and mobile applications

Professional Experience

Intecai Digital Limited | Chennai | December 2024 – December 2025

Web & Mobile App Developer

- Developed and maintained scalable web applications using **React.js, Next.js, and Node.js**, ensuring high performance and seamless user experience.
- Built and deployed **cross-platform mobile applications** with **React Native and Expo** for iOS and Android.
- Built **RESTful APIs** with **Express.js**, focusing on scalability and efficiency.
- Implemented real-time features using **Socket.IO** and **WebSockets** for interactive applications.
- Integrated **push notifications** using **OneSignal** to enhance user engagement.
- Embedded secure payment processing with **Razorpay** and **PhonePe**, facilitating seamless transactions.

Zealey.AI Tech Solution Pvt. Ltd. | Chennai | August 2022 – November 2024

Software Engineer

- Built **RESTful APIs** for an insurance management application, automating **80% of policy processes** and reducing manual errors by **45%**.
- Optimized multimedia handling in digital platforms, reducing **media load time by 60%** and significantly improving user engagement.
- Built and deployed a School Management System serving 5,000+ users with 99.9% uptime.
- Improved a **vehicle tracking application** with real-time monitoring, reducing fuel consumption by **20%** and improving fleet efficiency.

- **Deployed mobile applications to Google Play Store and Apple App Store**, ensuring smooth release and accessibility for end-users.

Key Projects

Mergit Delivery App

(React Native, Node.js, Next.js, Google Maps API, WebSockets, PhonePe)

- Upgraded a **React Native food and grocery delivery application** with advanced search, seamless ordering, and **micro-frontend architecture using RS Webpack** for scalable and modular development.
- Applied real-time order tracking and order scheduling using Google Maps API and WebSockets, while configured the PhonePe payment gateway for secure and reliable transactions.

E-Commerce Web App

(React.js, Node.js, Next.js, Drag & Drop, Razorpay)

- Built a comprehensive **e-commerce platform** for stationery, toys, and games with product listing, shopping cart, and secure checkout functionality.
- Enhanced a **Next.js-based admin panel** with **drag-and-drop (DnD) features** for inventory and product management, and embedded **Razorpay payment gateway** for seamless payments.

Vehicle Tracking App

(React Native, Google Maps API, WebSockets)

- Built a **React Native mobile application** for real-time vehicle tracking and fuel monitoring to improve fleet efficiency.
- Engineered live vehicle location tracking using **Google Maps API** and **WebSockets**.

Hospital Management System

(React.js, React Native, WebSockets)

- Built web panels and mobile applications for patients, staff, and appointment management.
- Executed real-time chat functionality with WebSockets, enabling instant communication between patients, doctors, and staff for improved coordination.

IoT Industrial PWA

(React.js, PWA, IoT, MQTT server)

- Led IoT application development using **React.js** with **smart scheduling, automation features**, and **real-time device communication via MQTT server**, boosting operational efficiency by **35%**.

Education

Bachelor of Engineering in Electronics & Communication Engineering

Annai Velankanni College of Engineering | 2017 – 2021

Higher Secondary

Anjuham Higher Secondary School | 2016 – 2017

Senior Secondary

Ramakrishna Mission Hr. Sec. School | 2014 – 2015

Languages

English, Tamil
